

JUAN CARLOS ARROYO BAQUERIZO

Junior Cybersecurity Analyst | AI Developer

Quito, Ecuador • (+593) 99 580 6330 • juanarroyobaquerizo2812@gmail.com •
GitHub: Juancb28 • LinkedIn

Education

Escuela Politécnica Nacional (EPN) Quito, Ecuador
B.S. in Software Engineering 2023 – Present
Focus on software architecture, algorithms, artificial intelligence and machine learning, databases, and information security.

Colegio Militar Nº1 "Eloy Alfaro" Quito, Ecuador
High School Diploma in General Sciences 2018 – 2021

Experience

Vibratio EC S.A.S. (Pericles Project) Quito, Ecuador
AI and Backend Development April 2026 – June 2026

- Designed and developed Retrieval-Augmented Generation (RAG) pipelines and mass multi-format legal document ingestion into the Qdrant vector database.
- Refactored processing pipelines and queries, reducing system response latency from ~2 min to ~20 seconds and optimizing LLM token consumption.
- Built robust Python microservices using FastAPI, implementing security mechanisms for API consumption and access control management.
- Constructed intent flows and block-based conversational memory with automatic executive summaries within a microservices architecture.
- Executed integration testing (Web and WhatsApp) and version control using Git and GitHub under agile methodologies.

Digital Inclusion Project Quito, Ecuador
Digital Literacy & Cybersecurity Trainer October 2024 – February 2025

- Provided personalized training in digital literacy and basic cybersecurity best practices for personal data protection to priority groups.
- Created methodological guides focused on secure technology adoption and information privacy.

Certifications & Training

- Fundamentals and Trends in Artificial Intelligence – JISIC 2025 XII, Escuela Politécnica Nacional.
- Self-taught Training and Practical Labs in Cybersecurity – Virtual environments, vulnerability analysis, network scanning, and penetration testing labs on TryHackMe.

Skills & Interests

Technical: Python (FastAPI), Java (Spring Boot), RAG, Qdrant, MongoDB, PostgreSQL, LangChain, LLM Integration (Gemini, Gemma), Cybersecurity, Vulnerability Analysis, Git, Docker, Linux (Arch/Kali), VMware, REST APIs, Microservices.

Languages: Spanish (Native), English (Intermediate – B2).

Interests: Fiction and philosophical literature, handheld GPS navigation for hiking and mountaineering, offensive/defensive cybersecurity.
